

TOOL BOXES

ON THE TRUCK

MINIMIZER™ TOOL BOXES ARE VIRTUALLY INDESTRUCTIBLE! PLUS, THEY DON'T LEAK, SWEAT OR RUST AND THEY MAKE A GREAT TOOL SAVER.

Truck & Trailer tool boxes - like our fenders – are tough enough for the most demanding work sites and weather. Made of solid molded plastic material our tool box will never rust, crack or need paint. Don't let the scale fool you – these boxes are no lightweights. They're tougher than metal boxes weighing 10 times more: and the ¾" gutter and Seal Tight™ weather stripping means poly-tool boxes are nearly weather-proof.

Our tool boxes mount easily to most trucks in minutes. Heavy-duty hardware keeps the plastic truck tool box as secure as a safe.

The "Vector T Latch" is number one in durability. It comes with a (standard) built in cylinder lock and two keys.

"Super Springs" provide for a self-lifting door on the chest style boxes.

With a ¾" gutter and "Seal Tight" weather stripping – weather-tight.

The heavy-duty universal mounting brackets keep your tool box secure.

TOOL BOXES

"My last metal tool box weighed about 200 lbs and ended up rusting shut!"
