KNAPHEIDE VAN EQUIPMENT

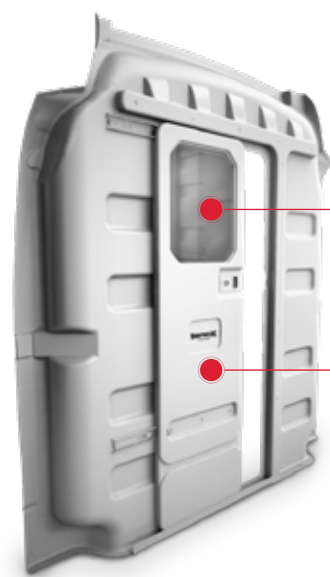

PARTITIONS

Knapheide Partitions divide your work van into two separate zones: the passenger area, which doubles as a mobile office, and the cargo area for storing parts and tools. In the event of an unplanned stop, Knapheide Partitions offer an extra level of safety and security. Knapheide Partitions are contoured to fit each van and conform to the B-pillar trim and headliner in the van and are constructed of 1/4" ABS thermoplastic, which has mechanical properties of impact resistance and toughness.

Create ability to heat or cool just the passenger area rather than the entire van.

Reduce the amount of noise in the passenger area coming from items in the cargo area.

Allow for full seat travel and a reasonable amount of seat recline.

Partitions are available with or without windows.

Partitions are available for all current vans. Partitions with sliding doors are available for taller vans.

FIXED SHELVING

Knapheide fixed shelving is a robust, durable van shelving system that creates an organizational solution for your van. The modular design allows for flexibility in both configuration and layout. Knapheide's fixed shelving modern appearance compliments both the current and new generation of commercial vans.

Tough, steel end panels feature a formed, channel construction, both front and back. Coupled with the proprietary spring nut, this design creates a very rigid, strong shelving system.

End panels include pre-punched slots which allow for attaching end panel accessories as well as improve the aesthetics of the product.

Fixed shelving can easily be upgraded with Boxes and Accessories to create vocational solutions.

Fixed shelving is adjustable to accommodate the customer's storage needs and allow for added flexibility.

Allows for the ability to mix and match different shelving modules when configuring your van.
